

Certification Application

ISO/IEC standards 31000, 31004, 31010, and 27005 provide guidelines for enterprise risk, information security risk, and business continuity risk management. These standards support the risk assessment and business impact assessment requirements of ISO/IEC 27001, and are designed to assist the satisfactory implementation of information security based on a risk management approach.

The CICRA credential by Certified Information Security certifies your understanding of how ISO/IEC standards 31000, 31004, 31010, and 27005 can be used to develop a custom risk management methodology that fulfils the requirements of ISO/IEC 9001, 14001, 27001, ISO 22301. It also helps fulfil the competence requirements of the certifications themselves.

Upon completion of this training and certificate program, you will:

- be equipped with knowledge and skills required to develop, manage, monitor, and improve an Enterprise Risk Management System in line with the ISO 31000 standard of best practice;
- expand your risk management competency;
- increase your credibility through gaining international recognition; and
- improve your résumé and help to increase your earning potential.

Getting certified is easy. The CICRA™ certification is available to qualified candidates who:

1. **Are a member of CIS in good standing.** If you are not already an Associate member of the CIS certification student body, you must first become a member to pursue the CICRA credential. Please see <https://www.certifiedinfosec.com/estore/cis-membership/cis-body-of-certified-professionals-detail> for further details.
2. **Attend the required CIS approved curriculum course, “CIS Policy Workshop: ISO 31000 Enterprise Risk Management.** Training can be attended at **live instructor-led sessions**, or **online**, or a combination of both.
3. **Pass online exam RM101.** CIS exams are administered online and can be taken at your convenience at your home or work through the CIS Learning Center, where your progress and score are monitored and recorded centrally. Your exam results are provided to you automatically upon completion of your exam.
4. **Complete and submit this application kit to the Certification Department at certification@certifiedinfosec.com.**
