

Certification Application

The NIST AI Risk Management Framework is designed to equip organizations and individuals with approaches that increase the trustworthiness of AI systems, and to help foster the responsible design, development, deployment, and use of AI systems over time. The Framework training is intended to be practical, adapting to the AI landscape as AI technologies continue to develop. The AI RMF is intended to be utilized by organizations in varying degrees and capacities so society can benefit from AI, while also being protected from its potential risks.
